SCANNING RESULTS

All ewes will have been scanned and the results are printed in the catalogue. This in no way guarantees the number of lambs at birth. If any female sheep which is described in the catalogue or at the time of sale as being "scanned in lamb" or in lamb, proves not to have been in lamb at the time of sale and within 7 days after the day of sale the purchaser gives written notice to the auctioneers of his intention to return the animal supported by a veterinary surgeon's certificate that such sheep has proved not to have been in lamb then the purchaser may return such sheep to the vendor.

INSPECTION

PRE-SALE INSPECTION All sheep forward for the sale will be subject to a Society inspection. Any animal which does not reach the Inspection standard will not be eligible for show or sale. The inspection decision will be final and any animal failed will be removed from the sale
