TURBO BLUE FLOCK

The decision has been made to reduce the Turbo Blue Texel flock numbers in order to ease the workload. Although I do not show myself, I have sold many animals that have gone on to be successful in the show ring and I always appreciate receiving messages and pictures of Turbo Blue bred animals that have done well for their owners.

It is also rewarding to know that noted breeders have purchased ewes to flush and/or breed them with the best stock rams available. To those breeders with interest in recorded information please feel free to ask as some entries are within the top 10% of all recorded Blue Texel sheep.

The flock is on the Heptavac-P system and vaccinated against Toxoplasmosis and Enzootic abortion.

If you require any further information please do not hesitate to contact me.

When cancer strikes young lives CLIC Sargent helps families limit the damage it causes beyond their health.

From diagnosis, CLIC Sargent's specialist care teams will step in, ready to help, support and guide. They provide a package of support tailored to each young cancer patient and their family.

CLIC Sargent will fight tirelessly for children and young people with cancer, often when they feel they can't. They do this individually, locally and nationally, so that they can focus on the important things, like getting well. And if the worst happens, they will work with bereaved families to get them support, to help them cope with their emotional pain.
